PROFESSIONAL SUMMARY

I am a self taught web developer having a total of **5 years** of web development experience with strong expertise in UI development with **React.js**, **Next.js** and also experienced in creating apis with python flask and node.js. I love to work with JS stacks.

SKILLS

Primary Skills:

React.Js - Strong expertise in React.Js. Developed several functional and class components. Migrated class to functional components using hooks. Used **Redux** for global state management in React application.

Next.Js - Created applications to render on **server side** in an optimised way to **load** the react application faster and to improve the **SEO**.

Secondary Skills:

Node.Js - Created servers with **express** framework and connected with MongoDB to fetch the data and serve it to the React application with an api

Python, Flask, Selenium - Created servers with python flask framework and connected with MongoDB to fetch the data and serve it to the React application with an api.

Used Selenium with python to **scrape** datas from several public websites. Also used selenium as an automation testing tool for testing.

CI/CD pipeline setup for UI,

Deployment done in various **cloud** services like AWS, Azure APP service, Heroku, Netlify, Vercel

NO-CODE app development with google **APPSHEET** to create applications with cross platform compatibility (Web and Mobile applications)

WORK HISTORY

Position | The DataTeam -Chennai, TamilNadu

06/2019 - CURRENT

Created several UIs for the product and POCs with React.Js and Next.js in agile methodology

Optimised the product UI and made it to load faster by debugging with chrome dev tools

Made UI components reusable across the products

Introduced development best practices to division to enhance product development.

Served as subject matter expert on the product UI for both clients and internal team members.

Prepared detailed reports on updates to project specifications, progress, identified conflicts and team activities.

Coordinated with other engineers to evaluate and improve the product.

Worked with software development and testing team members to design and develop robust solutions to meet client requirements for functionality, scalability and performance.

Prioritized roadmap in order to achieve product goals and metrics.

Deployed UI in azure appservice and AWS

Position | Kyvor Genomics Inc-Chennai, TamilNadu 12/2018 - 05/2019
